Dementia Care

Edinburgh's Finest Care Home

The care and kindness that people living with dementia need to reach their full potential.

We know that helping a relative living with dementia to lead a fulfilling life can become challenging within the home environment. That's why we offer a residential care solution that is always in the best interest of the person living with dementia. We are proud of the service we offer, which helps those living with dementia get the most out of life.

Dementia Care

Expertise and compassion

We provide a warm and welcoming sanctuary for those living with dementia. Our Dementia care is offered within the general Care Home community or in our specialist area, which has been carefully designed for those whose dementia is at a more advanced stage.

THE BEST TEAM

All residents living with dementia are looked after by our team of specially trained healthcare professionals, all of whom have high levels of clinical skill, empathy and compassion.

THE BEST CARE

We provide a range of therapies and activities that have been designed specifically for those living with dementia. This helps residents live a more satisfying life and ensures they can reach their full potential.

REAL PEACE OF MIND

Each of our residents is looked after using a bespoke personal care plan, which is linked to our unique mobile app. This provides real peace of mind by allowing family members to access their loved one's care plan remotely.

If you have any questions about any aspect of the care offered at Cramond Residence, please don't hesitate to get in touch.
