## Residential Care

Edinburgh's Finest Care Home

Small group living offers a rich and fulfilling life in a luxurious and friendly environment.

For those looking for long-term residential care and support, Cramond Residence offers the best possible nursing care delivered in an environment that combines luxury living with the reassuring feeling of being in your own home.

#### *Residential Care*

## Comfort and peace of mind

We take enormous pride in providing a positive nurse-led approach to residential care. Alongside the exceptional medical support we offer, our physiotherapists and lifestyle co-ordinators work with all our residents to keep them comfortable, healthy and mentally fulfilled.

#### **SMALL GROUP LIVING**

Our residential care approach is based on the concept of small-group living. This is incredibly beneficial to our resident's physical and mental health and helps residents reach their full potential.

#### **THE BEST CARE**

Each of our residents is looked after using a bespoke personal care plan that brings together all aspects of a person's wellbeing – from nutritional advice and emotional wellbeing, to physiotherapy and activities.

#### **REAL PEACE OF MIND**

These plans are regularly updated and are linked to our unique mobile app. This provides real peace of mind by allowing family members to access their loved one's care plan remotely.
